

Transform your passion for trees into positive impact in your community!

Become a UMN Tree Care Advisor Volunteer

About our program

This UMN-led program will give you the knowledge, skills, and training to help transform your interest in trees into positive community action.

Key information

How you'll start

Become a volunteer by completing our Core Course. The course meets weekly over Zoom from March 24 - May 12, with one in-person field day on the UMN St. Paul Campus.

About the Core Course

You will build a strong foundation of knowledge through a mixture of presentations, discussions, assignments, and hands-on learning opportunities.

Commitment to people & trees

Once certified, you'll put knowledge into action by creating your own volunteering opportunities to empower your community.
